

Fintech Event Challenge Case Study with Risk Management Association of Australia

It's about our network and relationships

As our reach and sphere of influence has grown over time, Matchi has developed close relationships with leading fintech solution providers (FSPs) globally . Our network now exceeds 4000 FSPs.

Patrick Barnert
CEO,
Qumram, Switzerland

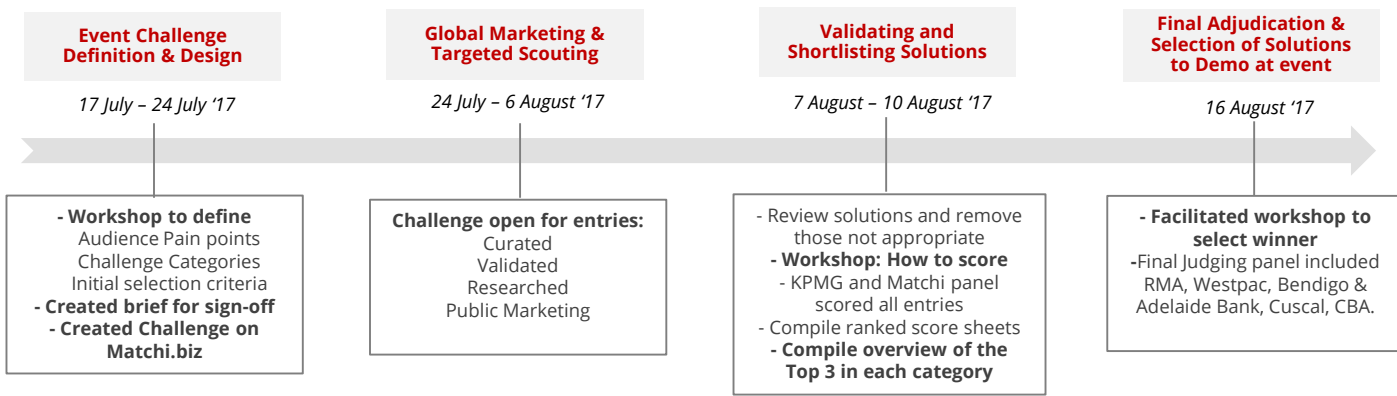

“RMA and KPMG truly understand the need for efficient compliance solutions and **with the assistance of Match.biz, they have found a truly innovative way to source these solutions from leading fintechs all around the world.** We're thrilled to have the opportunity to present our innovative and industry changing technologies to the CRO roundtable.”

“Partnering with Matchi has **helped us to expand our global reach over the years** and now we're honoured to be selected as one of the 3 companies to demo live at the CRO Roundtable event with RMA and KPMG. **As a worldwide technology provider in the banking industry, we are excited to have this opportunity** to present our mobile data capture solutions that enable great UX to Australian banks.”

“Qumram is uniquely positioned to support the Australian banking community in their efforts to mitigate this risk and protect their customers' interests. **We are delighted to be selected to showcase our fully-compliant WhatsApp and WeChat recording solution at the upcoming RMA event with KPMG and Matchi.**”

It's about quality and speed.

Source quality fintech solution providers to demo ground breaking technology that aligns to the strategic focus areas of your event participants. Quickly.

RMA is looking for solutions to demo at their CRO Roundtable:

Validated Entries: Winners

3 Matches Made. 3 Live Demos.

Beagle ai

When you're making a decision at work, based on something that is written (like a contract), there are rules. Beagle helps you understand what you are reading and how it relates to your company. Beagle is trained to know the things your company is looking for and then provides the guidance and information to the decision maker.

Microblink

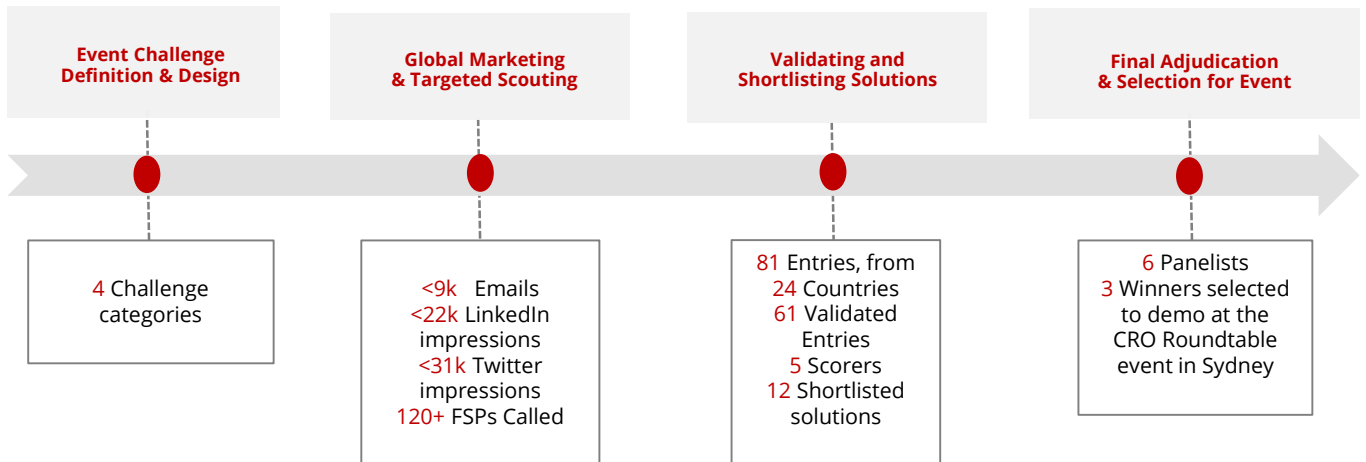

Enables true digital experience, hence makes the process of bank transactions easy, on-boarding fast, interface seamless and beautiful with a user-centric approach. Due to advanced methods for face matching, the verify feature of blinkID provides a reliable way to confirm user's identity to remotely access financial services while minimizing fraud risk.

Qumram

Qumram enables every digital interaction –web, social and mobile –to be recorded and replayed, at any time, providing a complete digital audit trail for financial services organisations, in accordance with key global regulatory requirements (MIFID-II, SEC, DoL, FINRA and more). It is the foundation that Risk and Compliance professionals rely on for true digital business compliance.

It's about what we put in.

We are not just a platform or plug and play challenge. We proactively reach out to thousands in our network and beyond. Here are the numbers.
